

15 Freebies for Grades K-6

Apps, Activities and Lesson Plans for Language Arts, Science and Math

At Houghton Mifflin Harcourt™, we know that teachers sometimes seek additional resources beyond our offerings to supplement learners' experiences. That is why HMH® launched a marketplace for educators to discover supplemental resources for the classroom. [HMH Marketplace](#) is also a new opportunity for teachers and developers to share and sell their original games, activities, and more with the wider education community.

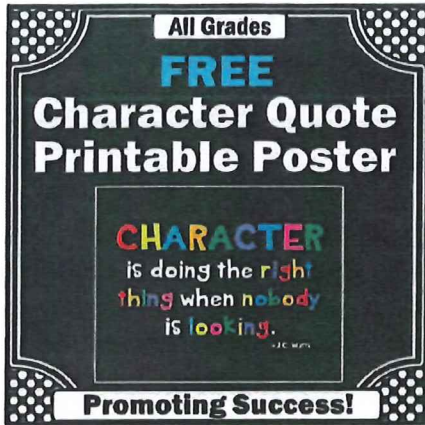

You're invited to join our community of educators. Get started by downloading one of these free products today!

[Fractions as Parts](#)

By completing the activities in this set, your students will understand how to see fractions as parts with a numerator and denominator. This math set is tied directly to the third grade common core NF.1. Grade 3. By Create-abilities.
